TRIMARK

Scanning 3D Embroidery Laser

- The addition of a PermaBoss NGL laser will allow you to do what most other embroidery shops CAN'T do.
- The NGL will allow you to DO exactly what costly \$150,000-\$200,000 plus bridge lasers can do using only 16 square feet of floor space but for a fraction of the price.
- The NGL Series of Scanning (galvo) CO2 lasers are significantly faster than traditional plotter lasers and can cover the same area 5-20 times faster.
- Easy to learn, easy to use software is included with a PC
- Reduce stitch count by 80-90% as compared to Fill Stitch, offer your customers decoration alternatives your competition can't.
- Make your embroidery more valuable & profitable by combining details and layers that are impossible without an NGL.

Unleash your imagination with the power of PermaBoss. Offer stunning multimedia 3D laser designs in less time than ever before!
